Argentina

As of 2011, Argentina was the most visited country in South America and fourth most in the Americas. Buenos Aires is the most visited city in South America. The number of foreign visitors to Argentina was over five million in 2010, which is small compared to the nearly sixty million foreign visitors to the United States.

See if your child would be interested in visiting Argentina someday by asking, "¿Quieres visitar Argentina? Do you want to visit Argentina?" Encourage the students to answer by putting their thumbs up (*arriba*) or down (*abajo*).

Hoy es...

Today the students learned how to say the day of the week in a complete sentence in Spanish.

I.e: Hoy es viernes. Today is Friday.

Each class we have been learning and reviewing the days of the week in Spanish. Ask your child to point to the days on a calendar and tell you them in Spanish. Did you know that the days of the week are not capitalized in Spanish unless they are at the start of the sentence?
