

Your teacher has pictures that she is going to hold up for you. They might be from a magazine or from a camera. First, you are going to talk in Spanish about what you see. Then your teacher will show you a different picture for a brief time. You will not talk about what you see. The teacher is going to hide the picture. Now, you have to place a "x" by the things that were in the picture. You will see how many things you remember. ¡Buena suerte!
