

Mi Ciudad

What better way to learn than to have the students make their own "ciudad"!

Write the following words on the board:

La piscina (alberca) • La playa • El cine • La tienda • Un restaurante • La avenida • La calle • Mi casa • La iglesia • La escuela • Un museo • La estación de policía • La plaza • La casa de (un amigo o un miembro de la familia) • La finca • El café • El supermercado • El mar

- Have the students individually or in small groups draw their own city (on large pieces of white paper) and label each place on the map. Encourage them to be creative and make up names for the streets museum, etc.
- Ask each student or group to tell you about his or her city using words like *cerca de* y *lejos de*.

These make great decorations as well as great vocabulary practice!
