

### **Notas Culturales**

- ❖ *Delgado* is a nicer word than *flaco*. *Flaco* means skinny as in "too skinny."
- ❖ *Guapo* has a feminine form (*guapa*) and both are used. However, do not use "bonito" to describe a male.
- ❖ Family members may describe other family members as they truly are - they call each other "gordo" or "gordita" - and that is commonplace. However, if a person outside of the family tries this, expect trouble.
