

¿Qué tiempo hace hoy?

Fill in the days of the week in Spanish in the first row of the calendar. For example: *lunes, martes*, etc. Place a star on the date when class is today and next week. During the week between classes, fill in the weather and temperature of each day using vocabulary from level II like: *hace frío, hace calor, hace viento, nieva, llueve, hace sol, or está nublado*. Below is a sample calendar that you can fill in. You can also fill in any daily chores you complete around the house in Spanish. IE: *poner la mesa, lavar los platos, sacar la basura, pasar la aspiradora*.
