Spanish Tortillas vs. Latin American Tortillas

Spanish tortillas and Latin American tortilla are very different! Spanish tortillas (tortillas españolas) are made with eggs and potatoes and are more similar to an omelet. They are much thicker than Latin American tortillas. Latin American tortillas are thin and flat, and are usually made from corn or flour.

Fun at home! You can learn about traditional recipes from Spain and choose a recipe to make at home by following the link below. You can even try making a tortilla española!
