

La Plaza

Today we discussed the idea of a “plaza” or “zócalo”, which is the town square in Spanish speaking countries. Many events are held in this area and it is a common place for people to meet. Draw your own “plaza” below. Write 3-5 sentences describing things in the plaza or things people are going to do in the plaza. For example: *La iglesia es blanca y amarilla.* The church is yellow and white. *Voy a la escuela.* I am going to school.
