

La Ciudad Board Game

Use the map below as a board game. Have the students roll the dice to move along the board to get from home (su casa) to school (la escuela). Each time the student takes his or her turn and moves to a new location, have the student say where he or she is going in Spanish. For example: "Voy a la tienda." Have the class repeat the destination location vocabulary in a full sentence. For example: "El/Ella va a la tienda."
