Notas Culturales / Class Activities

Words in Spanish have genders. For example, la familia is feminine and el dinero is masculine. Usually words ending in -a are feminine and words ending in -o are masculine, however there are exceptions to this rule. Counting numbers 16-19 in Spanish can be easy because it is adding ten and the number. For example, dieciséis (16) is: diez (10) y (and) seis (six).
