## Proyecto: El arte de Hercule Van Wolfwinkle

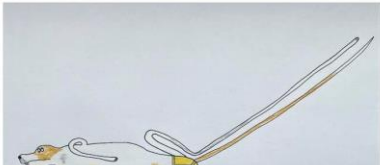

For this assignment, write one sentence in Spanish to describe each of the animals in our Hercule Van Wolfwinkle slideshow.

- We do not know if each animal is a boy or a girl, so you will have to guess. (Hercule Van Wolfwinkle doesn't know either, so he guesses too!) Please make *approximately half* of them boys (**él**) and *approximately half* of them girls (**ella**) for good sentence variety.
- If you decide that an animal is a girl (**ella**), consider whether you need to change the adjective to make it feminine. (Example: *Ella es **pequeña**.*) Only the adjectives that end in "o" will have to change to "a."
- For this project, please use at least **15 DIFFERENT adjectives**. Remember, colors count as adjectives too.
- Incorporate the words **muy** (*very*) and **un poco** (*a little*) in some of your sentences. (Example: *Ella es **muy** chistosa.*)
- Feel free to use the word "no" in your descriptions. Put the word "no" *before the verb*. (Example: *Él **no** es simpático.*)
- Write more than one adjective for some animals. Use the word **y** (*and*). (Example: *Él es grande **y** negro.*)

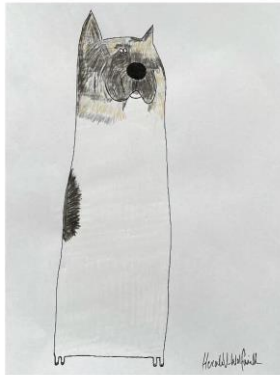

**Examples:**

Ella es blanca y negra.

Él es muy largo.

Él es grande y un poco antipático.
