Práctica: Practice Activity~ Colors & Family

   The key has colors for members of the family. Color in one circle for each member of the family that you have! For example, if there is one *hijo* in your family and two *hijas*, color one circle *Amarillo* and two circles *azul*. If there are extra circles, that's okay, you can leave them blank. After you have colored in all the circles for your family, count in Spanish how many circles you colored!   *HINT: There is an answer key at the bottom if you need help remembering the vocab.*
