

# Class Flowerpot

Work together as a class to create a beautiful bouquet! Students will color, cut and glue their flowers together before receiving help from their teacher to glue or tape them to the back of the class flower pot. Review colors and have them count how many flowers there are at the end in Spanish!

# Flores Para Ti

Let's make some flowers for your loved one! Color, cut and glue your flowers together before gluing the stem to the back of your pot. Write who it is for in Spanish. Make it extra special by writing a reason you love them in the flower petals or leaves!
