¡Vamos por la Galaxia!

Today we started our space adventures and met exciting new characters like astronauts, aliens, rockets, and planets!

Conversation Practice

¿Cómo te llamas? - *What is your name?*
Me llamo... - *My name is...*
¡Hasta el infinito y más allá! - *To infinity and beyond!*

Notas Culturales

Today, we learned about space and astronauts with a fun galaxy theme! We talked about Yuri Gagarin, the first person to travel to space in 1961, who orbited Earth in just 108 minutes aboard the rocket Vostok 1. We also learned about Dr. Franklin Chang-Díaz from Costa Rica, the first Hispanic astronaut, who flew on the Space Shuttle Columbia seven times. Lastly, we talked about Ellen Ochoa, the first Hispanic woman in space, who later became the director of NASA's Johnson Space Center. It was exciting to discover how people from different backgrounds have contributed to space exploration!
