TIPS FOR PLAYING ONLINE GAMES IN CLASS

Set clear expectations from the start.

Tell students to get their computers out and have the link ready on your screen for them to access.

Walk around to help students as needed.

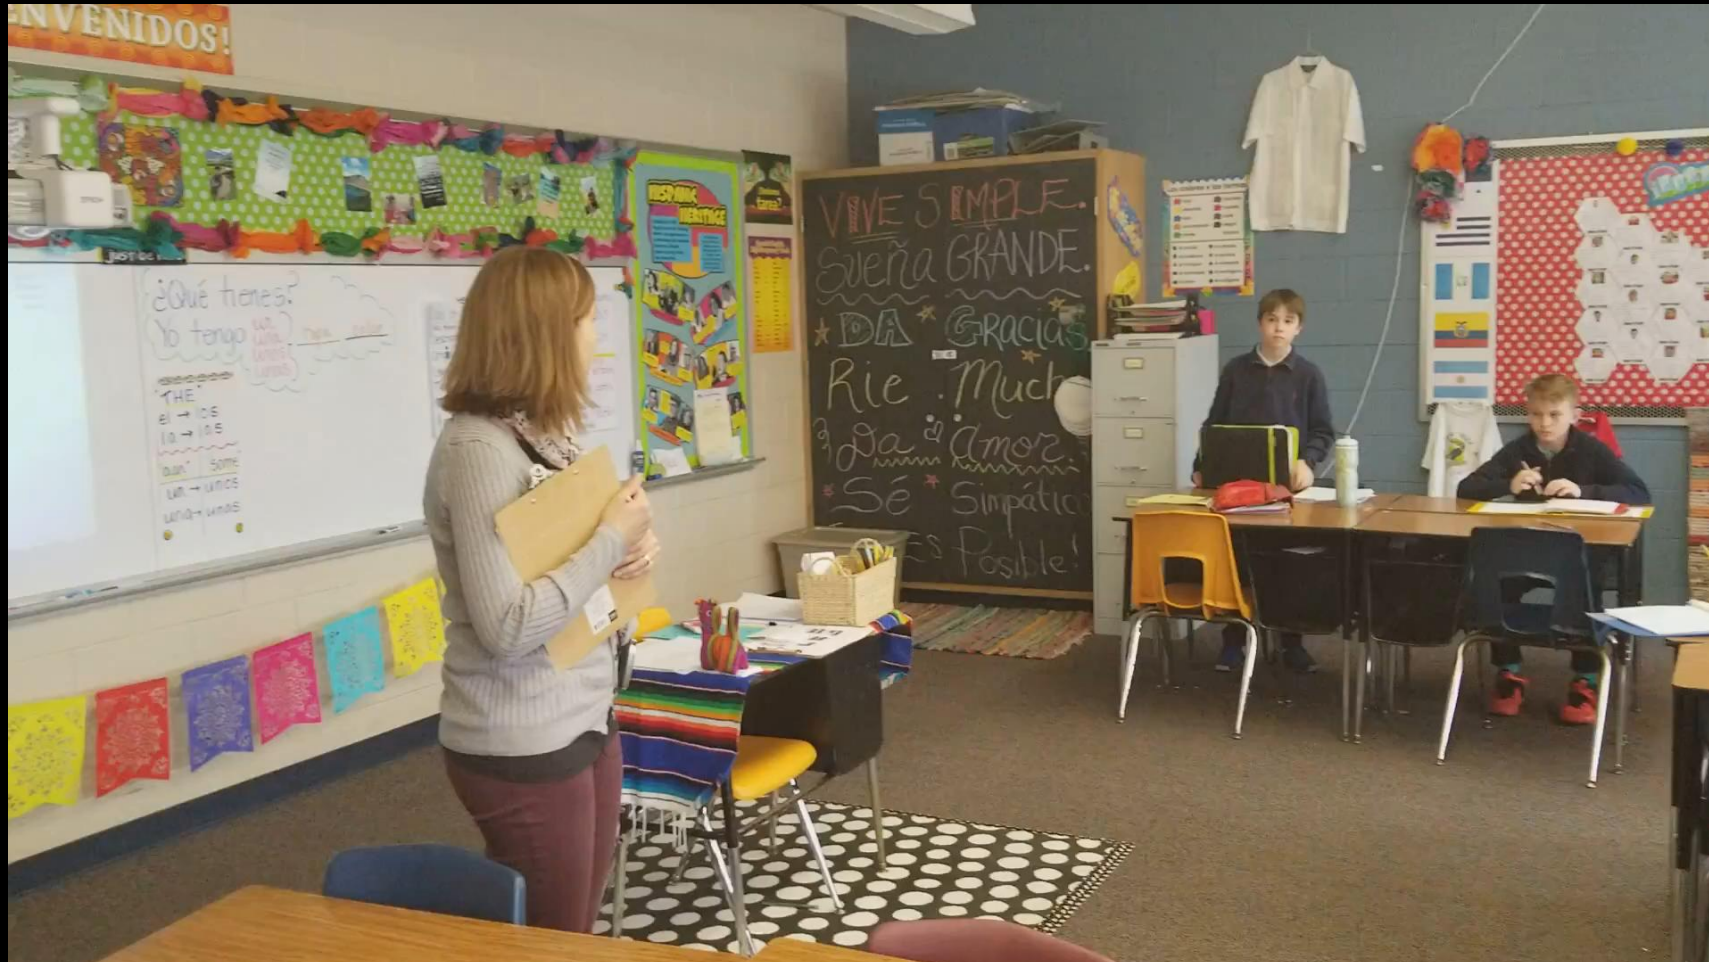

- ❑ Tell students to use their real names and not nicknames
- ❑ Reinforce the lessons from the games by having the whole class repeat the answer for practice.
- ❑ If there are common mistakes during the game, review these together to ensure learning.
- ❑ Don't play the online competitive games too often or too long.
