

# PESCA

The object of the game is to collect as many sets of matching cards as possible by asking other players for specific cards. If a player does not have the requested card, the asking player must "Pesca" and draw a card from the deck. The game ends when all sets are collected, and the player with the most sets wins.

# MEMORY

Lay cards face down in a grid pattern, take turns flipping over two cards to find matches. Remember the cards' positions to find pairs later. The game ends when all pairs are found, and the player with the most pairs wins.
